HSI SENSING RECEIVES OKLAHOMA CERTIFIED HEALTHY BUSINESS AWARD

CHICKASHA, Okla., U.S.A. (February 14, 2011) — HSI Sensing (formerly Hermetic Switch, Inc.), a designer and manufacturer of reed switches, proximity sensors, and other switch technologies, received the Oklahoma Certified Healthy Business Award by the Oklahoma State Health Department.

To be certified with the Healthy Business Award, HSI Sensing had to meet specific criteria, such as providing employees with health screenings, workplace health and nutrition education, opportunities for physical exercise activities, management support for healthy workplace environments, tobacco use prevention activities, and encouraging wellness activities in the Chickasha-area community.

Ryan Posey, VP of Operations at HSI Sensing, said, “We are truly excited to receive this award. We realized that healthy living is vital to the happiness and success of our employees, so we implemented wellness programs like Walking Club, health screenings, and education in order to create a healthy environment for everyone.”

About HSI Sensing

Established in 1968, HSI Sensing is an ISO 9001:2008-registered company that designs, develops, and manufactures reed switches, proximity sensors, and other sensing technologies. It provides custom and standard sensing solutions to industries including aerospace, agricultural, computer/electronic, construction, fluid processing, lawn/garden/turf, medical, military, security, and telecommunications. Specific applications in which HSI products are used include burglar alarms, commercial and military jet engines, commercial lawn mowers, defibrillators, hearing aids, pacemakers, space station/space shuttle functions, test, measurement and diagnostic equipment (TMDE), Vagus nerve stimulators, valve-position monitoring devices, wireless devices, etc. Customers include Fortune 500 companies as well as other key players in the global marketplace.
